

Become an eInstruction National Certified Instructor

eInstruction is looking for a select group of teachers who are interested in becoming an eI National Certified Instructor.

eInstruction National Certified Instructors are full-time middle or high school educators who have demonstrated expertise in 4 areas: pedagogical knowledge, content knowledge, presentation skills, and the effective use of eInstruction technology. Once certified, these instructors will deliver eInstruction professional development to educators throughout the U.S. and Canada.

Benefits

- Share best practices with other educators and inspire students through innovative use of eInstruction products
- Ongoing free professional development, product evaluation, and leadership opportunities
- Free eInstruction technology for your classroom
- Compensation for delivering eInstruction professional development
- Engage and network with educators and school districts across the U.S. and Canada
- Attend a 3-day professional development workshop and access to frequent learning opportunities
